

Fukuoka City Proof of Concept Full Support Project

Apply
Now!

Fukuoka City is looking for projects that use state of the art technology or innovative ideas to solve social challenges. We offer full support for PoC projects that work towards creating a new service and business.

◆ We provide a one-stop source for full support from the consultation stage to coordinating, implementing and offering PR for the project.

Consultation & communication

Receiving proposal

Coordination & deregulation discussion

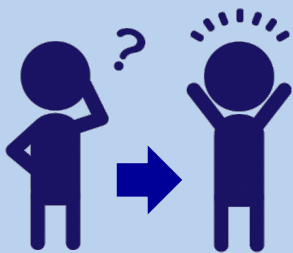

Arranging testing grounds & coordination

PoC implementation

PR support & event organization

Consultation & Communication

Feel free to contact us if you have any as below.

- I don't know where to contact.
- What support can I receive?
- I want to know about city initiatives.
- I don't know if my project is suitable.

Arranging Testing Grounds & Coordination

-Permission to use public facilities.

-Consultation and coordination for private facilities.

- Coordination of PoC monitoring supporters
- Local coordination

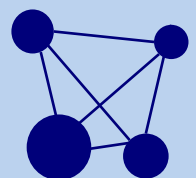

PR and Event support

- Press releases
- Collaboration events
- PR on city website

Government Data

- Access to government data
- Provision of information

Deregulation

If existing regulations prevent your project, we can utilize our status as a National Strategic Special Zone and support deregulation.

The above support is just a selection of examples. These will depend on your project.

Requirements:

- ▼The project must:
 - aim to solve social problems and improve citizens' quality of life.
 - aim to create a new service or business.
- ▼Who can apply?: Feasible business operators, research institutions, etc.
- ▼Examination criteria:
 - Innovation, business feasibility, marketability, sociality, feasibility etc.
